Relation to the Lower Snake River Juvenile Salmon Migration Feasibility Study

- **DMMP assumes current operating condition of the four Lower Snake River dams & McNary Dam on the Columbia River.**
- **If Natural River Drawdown is implemented, the focus of the DMMP will shift to Lake Wallula.**

Dredged Material Management Plan/EIS

**Walla
Walla
District**

Programmatic EIS - An Environmental Impact Statement that addresses a broad program rather than a specific action.

Individual dredging actions will still require:

Clean Water Act compliance.

**Endangered Species Act
compliance.**

NHPA compliance.
